EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

On page 19, line 21 of the Specification, the term "legoland" is a trademark. The term "legoland" has been deleted and replaced with --LEGOLAND, ®, brick configuration,--.

2. The following is an examiner's statement of reasons for allowance: The prior art does not teach a method of joining expandable tubulars and expanding the joined tubulars, said tubulars having a slotted middle section and an unslotted end section that is folded. The prior art also does not teach a method of joining expandable tubulars and expanding the joined tubulars, wherein the tubulars comprise slots filled with heat resistant filler during a welding process. Furthermore, the prior art does not teach a method of joining expandable tubulars and expanding the joined tubulars wherein a forge welding device is inserted into the inner tubular which heats up the tubular end, flushing a reducing flushing gas into any gap remaining and subsequently pressing the outer surface of the heated end of the inner tubular against the inner surface of the outer tubular to join the tubular ends by forge welding. These reasons, in combination with the other limitations of the claims, are reasons for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
